RETURN TO POMOLOGY SECTION OF NOMENCLATURE.

Direct to the Planters

In presenting our Semi-annual Price List (direct to the planter), we wish to thank you for past favors and liberal patronage, and assure you we shall try and give value received for every dollar’s worth of goods you are kind enough to purchase from us in the future, as we believe we have in the past. We urgently request correspondence and trial orders from new customers. feeling sure you will be more than pleased with our way. Buy direct; get acquainted with the man who grows the trees; who stands back of every order he sells you. We insist that, if you have any reason for complaint, on receipt of goods, you will kindly notify us at once. We are only too willing to adjust any fault on our part.

Selling through agents costs 50 per cent; hence, since inaugurating our system of selling direct to the planter, we are enabled to sell at one-half the price you would have to pay in buying through agents. It is the sensible way of doing business, besides the satisfaction the personal dealings always bring.

We stand back of every order that goes direct from our nursery to our customer. Our trees are carefully selected and inspected. Your order is promptly filled at once; you get your trees all nicely packed, and fresh right at your home—not left at some delivery point to lie around and spoil, as is often done through the agent system.
It should be a pleasure to know you can buy trees direct from a reliable nursery; know what you get; get what you order; get it at once, nicely packed and in first-class condition, right at your door, at 50 per cent less than the old way. Why not mail us your order? Let us prove to you our way is right.

Our trees are all packed in paper-lined boxes, in damp shingle toe, except small packages, which are neatly wrapped in burlap. We guarantee safe delivery to any part of the United States. We must state that our mail-order system has been a wonderful success. It means better trees to you at greatly reduced prices. Once you order, we feel sure you are our customer ever after.

At prices herein quoted, all trees or plants are carefully labeled, securely packed and placed on cars at Carlton, Ore., free of charge.

ERRORS OR SHORTAGE

In case of errors or shortage, customers are requested to notify us at once; otherwise we will assume the goods are satisfactory as per invoice.

CARLTON NURSERY CO.,
Carlton, Oregon.
FRUIT TREES

Prices herein quoted are for first-class stock as per grade offered. Purchasers ordering 25 or more (any selection) are entitled to the 25-and-up rate, such as 25 apples, 25 pears, etc. Special prices on large orders.

Our Guarantee

WHILE we exercise the greatest care to have all our trees and plants true to name, well grown, and packed in the best possible manner, and hold ourselves in readiness, on proper proof, to replace all trees or plants that accidentally prove untrue to label, free of charge, or refund the amount paid therefor, it is mutually understood and agreed to between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for trees or plants that prove untrue. Our reputation for upright dealing, and the uniformly high standard of quality of our products, is our guarantee to our customers.
Walnut Trees

We are growers of the pure Vroman Strain of Grafted Franquette Walnuts. Our scions were originally taken from the most select grafted trees in the Vroman grove. Our scions are now cut from acclimated Oregon-grown bearing trees. All our trees are grafted on three-year-old California Black walnuts, which, after years of experience, have proven to be the most satisfactory. It has been demonstrated beyond a doubt that this is the most hardy variety, is a prolific bearer, bears young, and is one of the best commercial walnuts. It succeeds to perfection throughout the Northwest. We believe there are great opportunities awaiting those who plant Walnuts. However, it is essential that Walnuts be planted on fairly rich, deep soil, well drained. Good cultivation is recommended. So much has been said about the Walnut that we don’t feel it necessary herein to dwell along those lines. However, we were pioneers in the business, and will cheerfully give any information desired.

Special prices on large orders.

Twenty-six years in business here means that our years of experience in growing and handling Nursery Stock are worth something to the planter. Questions regarding soils, locations, planting and varieties will be cheerfully answered.
